

# Elite Cloud Support Services (CSS) Plan

## Data Sheet

If you or your end-users have critical workloads running either in the cloud or on-premise, that require guaranteed response times and the very highest priority for resolution then Tech Data's Elite CSS plan is right for you. Outsource your technical support to Tech Data and free up your highly skilled internal resources for other, more strategic activities. Your end-user customers can even access our service directly, 24/7 and you can tailor the service you provide for each customer.

### Benefits of CSS Elite

- Multichannel access for you and your end-user customers
- Highest ticket prioritisation and resolution effort
- Ensure minimum downtime for you and your customers
- Ticketing tool access to submit tickets and gain reporting
- Access to highly skilled cloud engineers
- No need to have dedicated, expensive internal resources to manage technical support
- Guaranteed Initial Response Time SLAs
- Unlimited Cloud tickets
- On-premise tickets in Pay as You Go, no upfront investment needed
- 24/7 incident management (according severity)
- Customisable with additional features to meet your support needs

Purchase Options		Annual contract (minimum length)
Support can be requested by	>	Partner and end-user
Initial Response Time SLA (IRT)	>	1/2/4/6 hours (according severity)
